## PREPARING FOR THE COURSE

---

The best preparation that you can do for any of our business courses is to follow current affairs. This could be as simple as watching or reading the news that follow the stock markets. Being aware of the wider world is an important skill to develop. Using trusted sources is really important so we recommend;

<https://news.sky.com/>

<https://uk.reuters.com/>

Alternatively download a news app, turning on notifications, that way you're always up to date.

Another great way to prepare is to build your vocabulary focusing on business terminology. We recommend the BBC bitesize website for those studying Levels 1 and 2 and for those studying L3 try tutor2u. Both links can be found below.
